Creek. The accident was caused by a broken rail and no one was painfully hurt in it.

The escape of Express Messenger W. E. Ward, of Bristol, and Baggage-master B. G. Walker of No. 105 Harrison Street, was little short of a miracle. Both of these men wont down the bank in their cars, and that they were not crushed by baggage or express matter, as the cars turned over is remarkable. Both of them were slightly hurt, the express messenger having a few scratches about one of his knees and the baggageaman had a few slightly bruises. The application of the emergency brakes, caused by the disarrangement of air apparatus, caused the train to come to a quick stop, and one lady in the day coach was thrown from her seat. The passengers in the Pullman did not know an accident had taken place until they were apprised of it by trainmen.

The train was running in the yard limits, and Superintendent V. A. Riton who happened to be a passenger on it, stated that the speed was not more than five miles, if, quite se much. Had it been as much as fifteen miles an heur, would have gone over the embankment.
